Town Clerk Town Clerk's Chambers High Street Dornoch 11 July 1972

Dear Sir

DORNOCH AIRSTRIP - FEES AND CHARGES

Thank you for your letter of 30 June 1972.

As you are aware licensing action is now in hand but with regard to your request for information about a scale of fees and charges I wish to advise you that I have been obliged to refer this question to the Department of Trade and Industry, which under Art 71 of the Air Navigation Order 1972 remains responsible for various aspects of sharges at licensed aerodromes.

I have asked Mr R A J Berry, Dept of Trade and Industry, Room 330, The Adelphi, John Adam Street, London WC2N 6BQ to reply to you direct.

Yours faithfully

W Slave

A BLAIR for Controller

Telex No.: 22231

Telephone: Temple Bar 1207, ext. 1473

3 July 1972

As Mr Blair of the Civil Aviation Authority's office in Edinburgh indicated in his letter to you of the 11 July whilst the Authority is responsible for licensing aspects, the Department of Trade & Industry has certain responsibilities concerning fees and charges at all licensed aerodromes in the UK.

I should explain that although the ammer of an aerodrome licensed for public use is entitled to charge whatever he thinks fit provided he does not discriminate in any way between users of the same class, this Department does have the power under Section 8(2)(0) of the Civil Aviation Act 1949 and Article 71(1) of the Air Navigation Order 1972 to prescribe the charges or the maximum charges for the use of any aerodrome in respect of which a license for public use has been granted. We therefore require to have full details of charges at all licensed aerodromes in the UK and to be consulted by their owners if any change in their scales are contemplated.

This is the reason for the Departments involvement in aerodrome fees and charges but to deal with your immediatelproblem of deciding what charges you would wish to impose at Dornoch, I am attaching a copy of the Aerodrome Owners Association Schedule of current fees and charges as a guide to assist your Council's consideration of the question, as the majority of aerodrome owners charge in accordance with the scales recommended by the Association.

If you have any queries on the AOA scale of charges I suggest you should get in touch with Mr Hargreaves, the Association's Secretary, who in addition will be able to advise you on certain increases to the present charges which I understand have been proposed.

Yours faithfully

R A J Berry

# Decimalisation of and Increases in Scale of Fees and Charges

On 23 November 1970 notification was given of increases to take effect from 1 November 1971 and the Executive Committee gave approval to these at its meeting on 22 January 1971.

Opportunity is taken to amend conditions etc last issued on 15 January 1969 and to take account of decimal currency.

In explanation the following Schedules are attached to this letter:

Schedule A Conditions, rebates, surcharges, etc.

Schedule B Charges effective 15 February 1971 (decimal day)

Schedule C Increased Charges effective 1 November 1971

# Westland's London Heliport

Special conditions apply at Westland's London Heliport and their Schedule of Charges and Arrangements will be issued early in March to take effect from 1 April 1971.

By Order of the Executive Committee

- b For each period of 24 hours, or part thereof, the charge will be
  - c For helicopters the space occupied will be the product of the diameter of the rotor and the maximum length of the aircraft.
  - to all d. The Parking Charge will begin to operate only after the aircraft elastical has been parked for a period of three hours. These charges will apply whether the aircraft is secured to the ground or to a structure on the aerodrome, or is left on the ground unsecured. The cost and risk of picketing shall be borne by the owner of the aircraft and shall only be carried out in accordance with the instruction given by him.
  - e Should the Aerodrome Manager or other responsible officer for reasons of safety or for any other reason which, in his absolute discretion, may be considered good and sufficient for the proper conduct and use of the aerodrome, order an aircraft parked in the open, which is capable of being housed, to be moved to a hangar, the ordinary charges for the housing of the aircraft will be payable.
  - The fee for housing or parking for a period of one week shall be six times the daily rate and for a period of one month 22 times the daily charge as specified in Clause 5.b. above. Prior application must be made for the grant of period rates. Once such an application has been approved, the appropriate fee becomes payable and no rebate can be admitted even though full use may not be made of the facilities which the application covers.

or . Let a self it is a decrease on

- When period terms for parking aircraft are arranged and it is found necessary to house the aircraft, through bad conditions or for other reasons, the full daily charge for housing for the days on which it is housed will be imposed.
  - h In certain circumstances the Aerodrome Manager or responsible officer may allow another aircraft attracting an equal fee to be substituted for an aircraft for which a period housing or parking fee has been paid.
- No aircraft should be accepted for housing or parking unless a form of agreement covering such facilities has been completed.
  - j The standard charges shall not be applicable to a privately rented "lock-up".

## 6 Payment of Fees and Charges

a Charges at period rates for housing or parking will be payable on acceptance of the application specified at Clause 5.i. above.
