Conclude

1) Up until early 18th c anyway, probably
later, Hstle was part of the Barony of
Proney + did not belong to Skibo

2) But in 1557 Ullest is included in the lands
of Skibo, listed between Sythera and Ferretoun
with Ardalles which I take to be the point
(Ard) of Allest or Ullest - thus: Sythera, Ullest,
Ardalles, Ferretoun with boar and ferry. Then comes
Dawatsin, Drum deware, then ~~Ach~~ Auchivyach
with its pendicles Cuthegermolaye and Auchenecolas
(which I take to be Achivyach with Achormlary and
Achosnich). Neyr is the mill of Skibo and the
Bishop's Palace of Dornoch
