PRIMARY ACCOMMODATION

1. In the event of Skibo and Embo pupils being transferred to Dornoch we should have on the average an increase of nine pupils per class.
 2. Even at present, classes have got to be allocated to rooms every session in such a way that there is adequate accommodation for the largest.
 3. An examination of the existing class-rooms shows that there is physical space for nine additional desks in three of the rooms but it would produce discomfort and inconvenience, and make adequate arrangements for grouping of pupils impossible.
 4. In a fourth room re-furnishing the room with smaller desks would probably be necessary before nine additional ones could be accommodated.
 5. The remaining rooms could accommodate respectively 2, 4 and 1 additional desk only.
 6. The figures supplied to the Architect when Phase II was being discussed included provision for the accommodation of pupils from Larachan and Skibo, but even on that basis two of the rooms are undersize. It is clear, therefore, that the accommodation of, on the average, an additional six pupils from Embo could not be contemplated without serious educational disadvantage.
