

ACHVAICH SETTLEMENT (N-Z EXTENSIONS)

NOTE:

The first four pages are a precis of the original.

The subsequent pages are the family tree sheets taken in order.

ACHWAICH SETTLEMENT - OTAGO NZ SETTLERS

The 1851 Census listed 52 persons living in 13 cottages in Achwaich. John and Betsy Murray, with the two youngest (Catherine and David) lived in one cottage. The older members of the family had left home - Robert was already in NZ. The present house (Achwaich) is occupied by James Matheson, his wife and two sons. He farms this 600 acre block, part of the Strabo Trust lands owned by the late Andrew Carnegie of Strabo Castle. Scattered around this valley were the small crofters cottages, but all that remains today are the heaps of stones, though the walls of one or two are still standing.

John Murray (29/6/1818 - 14/4/1896) m Margaret McCartney (1822-1885) were married in Scotland, and apparently living in Aberdeen prior to coming to NZ in 1856, on the "STRATHMORE" with their 3 children Betsy (1850-1893) m William Roberson (1850-1931), JANE MURRAY (1852-1920) m Robert Sutherland Maclean (1837-1899), and MARGARET MURRAY (1854-1922) m JAMES CAMPBELL (1852-1943).

MARGARET MCCARTNEY was brought up at Castle Douglas, and was a sister of Lord ROBERT MCCARTNEY, Governor of South Africa.

After arriving in NZ, JOHN farmed at Westfield, near Milton, South Otago, but little is written about John's activities both before and after coming to NZ.

ROBERT MURRAY (1810-1898) [Extracted from the Encyclopedia of NZ].

Mr Robert Murray, J.P., formerly member of the Portree County Council and sometime a member of the Otago Provincial Council is one of the oldest settlers residing in the Tokomaitiro district. Born 1810 at his father's homestead near Darnock, he was brought up as a carpenter, following his trade in England and Scotland. 1849 arrived Port Chalmers in the barque "Cornwall" (Capt. Wm Dawson, London). The vessel did not come direct to NZ but called at New Plymouth and Wellington to land passengers & goods. The Medical Superintendent of the ship was Dr Donald who afterwards settled in Lyttleton. Murray worked at his trade in Dunedin, and in the Taieri and Tokomaitiro districts until 1855, when he purchased one of the first sections of land at Clarksdale under the land regulations of the Otago Provincial Govt. which sold these sections at the upset price of 10 shillings per acre, on condition the purchaser should spend

should spend 1

£2-00 per acre in improvement within 2 years of purchase. He subsequently increased his area to 600 acres, which he farmed till 1895 when he disposed of his land and acquired a smaller property adjacent to the township of Milton. As early as 1866 he was elected member of the Otago Provincial Council in which he sat for 4 years, he became member of the Tokomairiro Road Board for several years and was elected one of the first members of the local committee of the school under the Otago Education Act of 1856. For a number of years Elder of the Presbyterian Church and was on the Building Committee during the erection of 1st & 2nd buildings which have been superseded by the present beautiful Church.

He married 1862 Mrs Mary Eason, of Chanderline, Scotland, had 3 sons Mrs Murray died 1870 and he later married Mrs Mary Jamieson

HUGH MURRAY. (1830-1906) [Extracted from the Cyclopaedia of NZ] of "Rosebank", Balclutha was born Dunoch Parish, Seithland, Scotland, emigrating to Victoria in 1854. Crossed to NZ beginning of 1855 and after a few months in Auckland, left for Otago to join his brother, Mr Robert Murray, who had arrived 6 years previously. He travelled on foot from Timaru to Milton, and after joining his brother was engaged in various occupations including contracting, road making and sheep shearing.

1868 he purchased a few property c 400 acres at Clarksburg where he farmed until 1892, when he leased his estate and retired from active life, leaving 6 years at St Leonards and since 1898 on his valuable property near the town of Balclutha.

He was a member of the Mount Stewart Road Board for 14 years and for one year on the St Leonards School Committee, and the Farmers Club. Member of the Otago Early Settlers Assocn.

Married in 1868 to a daughter, William Hislop of Tokomairiro, who arrived in Otago by the ship "TURA" in 1858, and there is a family of 2 sons & 2 daughters. Elder son Mr John Murray occupies a reasonable position in the Government Stamp Dept, Wellington. Elder daughter married to Mr Alexander of Clarksburg and youngest son and daughter reside on a farm near Invercargill.

EPICLOGUE

For many years the late JOHN BRUCE PUGHMAN MURRAY, of Dunedin kept a record of the descendants of John and Betty Murray of Auchtermuchty, Seithland, Scotland. After his death his wife ELVA discussed with me the future of the material he had so carefully accumulated mainly on a blind roller, of pages glued together to form what his son called "The Pocket Primer!"

It was decided that I take over the material and put it in a form easily copied and handled. It has been a real labour of love to bring the record up to date and to try and give some of the overseas connections as well.

No doubt there are quite a few blanks but it has not been possible to contact everyone.

It is my earnest hope that some of the younger generation will take up the task of keeping family records in a more detailed fashion, and faithfully continue our goodly heritage.

ROSS MURRAY
40 Eaton Crescent
Matua.

Tauranga.

January 1986

Appendix

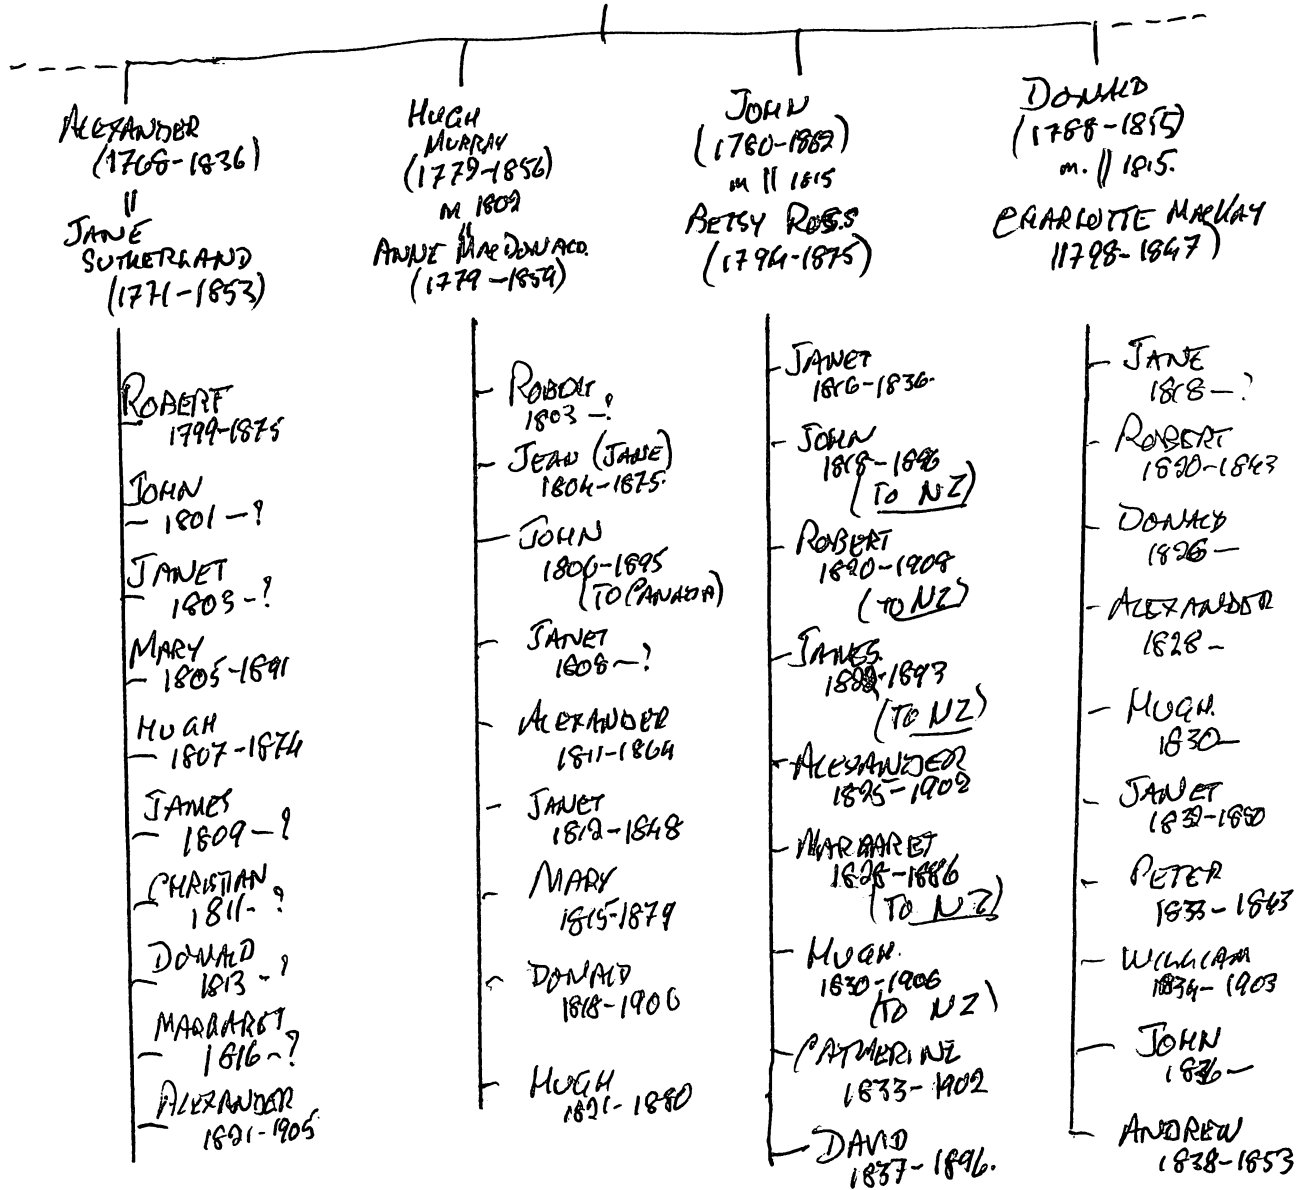

The following pages (1-3) show the NZ descendants of another Achvach family — Donald and Christina Murray. The exact connection with John and Betty Murray is not clear and more research is necessary. It is of interest to note that when Murdoch Murray and his sister Catherine came to NZ, he started as ploughman for Robert Murray of Clarkeville, on "Marybank" Farm.

Page 4 shows the relationship between Achvach and the Achvachgarrin Farm Murveys who lived near Rogart on the road up the valley towards Long - NW of Dornoch. Having met, and stayed with various descendants of both families it was most interesting & rewarding to me to learn of the interrelationships that existed. For any who desire to further their research there is a wealth of opportunity, and any further information would be most welcome.

ROSS MURRAY.
