Mr K. C. Button, Embro.

This is to certify that Kenneth C. Button
is well known to me, & that he is
a young lad of unblemished
moral character. He is obliging
and pleasant, and as far as
my knowledge of him goes he
can be relied upon to discharge
any duties suited to his capacity.

W. Macleod, Minister.

1 Oct-1935

Kenneth Button has been known to me from his early boyhood and it affords me pleasure to testify to his good character. He is a young man of steady, reliable conduct, industrious habits and of a bright, happy disposition.

He is, besides, quick witted, alert and resourceful and likely to make himself useful in the Air Force to which, I understand, he seeks entry.

To whom it may concern;

It gives me great pleasure in certifying that the Dearest Mr Kenneth Button is personally known to me and as I have seen him frequently during the past number of months I can vouch to his general Character and behaviour which has been exemplary, and above reproach. He is steady, honest and industrious and will give a good account of himself to any one employing him.

He comes of a most respectable Family and I had the pleasure of knowing them all for the past thirty years and if he follows in their training well, I have no fear of his future.

TO WHOM IT MAY CONCERN.

I have much pleasure in testifying that I have known
Mr Kenneth Button of Brisbane House, Park Street, since
17th June 1935 and can personally state that I have no reason
whatever to doubt his honesty and integrity. His conduct from my
own observation has at all times been above reproach, and, viewed
from every angle, I am of the opinion that he is a lad, temperate
and of good moral character and behaviour, fitted in every way for
the position of which he informs me he is an applicant, and I do
feel that if his services are accepted he will reflect credit on
your choice.
